

Mantova (Italy)

MANTOVA has asked their ULG members what they think about working together in the frame of the implementation of cultural strategies of the city. Promoting the participation of the actors involved in the development of our cities is a unique element of the URBACT Program methodology. When it comes to implementing heritage management strategies in small European cities, such as Mantova, the actors recognize the positive result presented by this participatory method. Collaboration, new ideas, discussion, experience and shared vision are some of the fifth essences highlighted by the interviewees.
